

European manufactured Greenline Yachts have acquired many awards and this 2014 model Greenline 33 is no exception. This particular launch runs a conventional propulsion system of a diesel motor, gearbox and shaft drive to a propeller. There are no extra batteries, no electric motors and no complicated charging systems to worry about. Powered by a 150hp VW TDI Marine Diesel with sound cocoon and only 272 hours on the clock she provides thrifty cruising as low as 10Ltrs/hr at 8 knots and yet can sprint at 13 knots if desired. The aft galley while compact is perfectly formed and faces the sliding doors which open up to the deck area allowing it to double as bar during the evening cocktail hour. There is a feeling of openness with superb indoor outdoor flow. The accommodation should impresses with the option of two single forward berths or a generous double, a further double can be made up in the saloon. Her owner is looking to change so offers this very well finished and user friendly vessel for sale. Call today to view this European beauty.
