

**This Florida built Baha Cruisers King Cat 270, is one of the most stable platforms for fishing, diving, or playing on the ocean...there's nothing quite like a Catamaran!**

This vessel was designed and built by the Baha Cruisers shipyard in 2000. Baha seems to sell more of its catamarans to charter operations in remote parts of the world than any other American cat builder. The great ride of 270 shows why in places where seaworthiness and being well built, must be proven factors. With the starboard engine reconditioned in 2016 and port side 2023, this boat is ready for years more ocean-going adventures. Will she be the one to get you out on the water this summer?
